

▼ Cultural Exchange

We also love performing for different communities outside of traditional music venues. We pursue opportunities to meet local residents of the cities that we visit and to carry out exchange activities.

Charity concerts, Martin Luther Church in Amsterdam, St. John's Church in Bethnal Green and Golders green church in London

A festival in Dalston, downtown London, Musical instruments museum Brussels, etc

An educational performance at the Japanese School of Amsterdam, Brussels Japanese School, Colegio Japonés de Madrid, Centre culturel chrétien de Montréal, PointCulture ULB Ixelles, Refugee Council Children's Services (Croydon London) etc..

We are deeply grateful that our music continues to be recieved warmly and passionately by wide range of people, from local children to jazz enthusiasts, all over the world.

I love the moment right after the curtain lifts and our first sound meets the audience whose faces are full of expectations.

Frankly speaking, raising funds for 10 band members with huge instruments have been always very challenging as an indie band.

Yet, I would come anywhere for that moment.

I hope we get to meet you and your audience.

Thank you.
